Plantation of trees under action C3

There is still delay in the plantation of native trees at Csanytelek 3 B because of the water coverage at the project site by River Tisza again. Unfortunately the area is in a deep surface level which is covered with water very easily.

Until the reporting period totally 118 900 pcs of saplings were planted. The rest of the planned number (63 900) of saplings serves as replacement in the future in accordance with the weather conditions and the development of the planted saplings.

Total number of planted trees (until 2017 spring)				
Region code	Area (in hectares)	White Willow	Black Poplar	White Poplar
Csanytelek 1 A	12.68	21100	4100	2650
Csanytelek 1 B	13.72	25500	5250	3500
Csanytelek 1 I	4.68	13400	2700	1600
Csanytelek 3 D	31.12	24 600	4 300	3 700
Baks 14 C	1.69	4 900	1 000	600
Total	63.89	89500	17350	12050
